Property data starts with one unique ID

The world's most comprehensive hotel mapping database, trusted by global leaders.

The most trusted property mapping tool in travel.

Industry-leading mapping accuracy
We assign a unique ID to every hotel and map it to supplier IDs. Platform looks and functions professionally. Every hotel is identified accurately regardless of the supplier, cleaning up duplicate listings, reducing booking errors.

Benefits for your business

- **Unique ID for every hotel**
  One property, one ID, for trustworthy listings.
- **Built for scalability**
  236 million supplier codes already mapped.
- **Data foundation for AI**
  Reliable foundation for AI-readiness and analytics.

Let the data work for you

- **OTAs and Tour Operators**
  Transform your operations with coherent property data.
- **GDSs & bed banks**
  Streamline data flows to reduce system load, costs and complexity.
- **IT providers**
  Free up development teams with a plug-and-play solution.

"Partnering with GIATA has allowed us to significantly accelerate our mapping pipeline, helping us consolidate multi-supplier data into a reliable booking experience. They are an essential layer in our tech stack that empowers RateHawk to scale our global inventory with absolute confidence."

Christopher Jallah
Head of API Distribution
RateHawk

How GIATA Multicodes works for you?

Collects

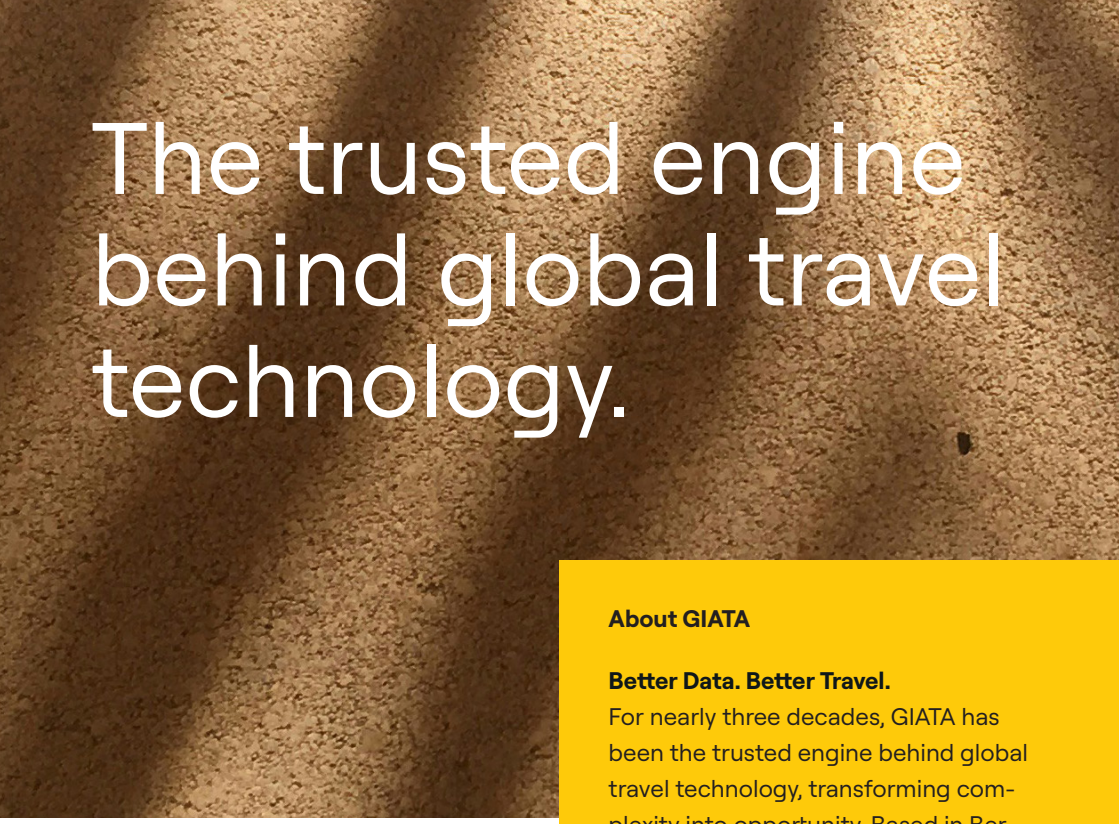
GIATA Multicodes collects hotel property data fed by more than 500 suppliers and Tour Operators worldwide.

Maps

All records are accurately mapped, including names, chain affiliation, addresses, cities, destinations and more, removing mismatched entries.

Maintains

Mapping data is checked and maintained across connected systems so that errors never return.



The trusted engine behind global travel technology.
